

SENTINEL ASIA System status & Facebook as communication tool

Nov 2013

Disaster Management Support Systems Office Japan Aerospace eXploration Agency (JAXA)

I. Sentinalasia status

1. Sentinelasia system present condition

Sentinelasia system is temporary closed. Due to a serious security problem in the "struts2" module. JAXA Sentinelasia team studies fundamental solution.

We are terribly sorry for the inconvinience!

1. EOR

JPT or ADRC member will e-mail to ADRC with EOR form.

2. Inform (ADRC operation)

ADRC request observation to DPNs by e-mail.

3. data dissemination (New observation, archive)

Some DPN provide thier own FTP sites.

JAXA download data and upload freeftp service or JAXA Bousai Web site.

We inform related DANs how to download the data by e-mail.

4. data download

DANs download these data and create products for the disaster.

5. data dissemination to ENDUSER

DAN people serve thier products by e-mail dropbox, google drive, freeftp service.

1. Example of FreeFTP service

2. Example JAXA Bousai Web Service

Put (1)UID (2)PWD

- 2. Example JAXA Bousai Web Service
 - ⑤Put Number (refer e-mail) ⑥ Just click
 Then you can find and download the pan-sharpen product

3. Points to Inprove

1. data transmission

- FreeFTP site keeps data in short term (7days).
- Some organization cannot use Dropbox, google drive due to a security reason.
- JAXA bousai web is sometimes low network performance.

2. data archive to sentinelasia Website

- SA secretariat cannot track products which created by some DAN and provided to END user.

3. Information shareing

- point to point communication via e-mail, Projects member difficult understand the situation.

Any Suggestions Proposals?

II. Facebook as communication tool

1. Backgraund

No status indication on the SA Web site regarding.

- ✓ Which DPN start to observation after EOR ?
- ✓ Which DAN start to analize satellite images?
- ✓ Which DAN provide products?
- ✓ Which part is most reqired to analize?

Anyway Sentinelasia Website is closed It may be even more difficult to sharing information.

JAXA propose Facebook as a communication tool. terget will be

- **✓** Announce SAactivation, data provision information
- ✓ Coordinate data analysis
- **✓ Inform EOR details**
- **✓ PR Sentinelaisa to non JPT member**
- **✓** Exchange opinions for DAN cooperation

JAXA think FB will serve supplementary information of SA Website. Policy will be

- ✓ Sentinel Asia members should communicate about Sentinel Asia system operations with transparency and consistency on social media
- **✓** Sentinel Asia members should
 - take responsibility for a message which a member posted to social media.
 - avoid bringing a misunderstanding or a sense of discomfort to others.
 - decline any comment on individual information.
- ✓ Sentinel Asia members should neither commit libel nor violate the rights of intellectual property, trademark, copyright and others.

User operation

✓ Share EOR information

- •If EOR is activated, ADRC should post the message of activation.
- •If any Data Provider Node (DPN) starts to provide observation satellite images, the DPN should post the message of its data distribution.
- •If any Data Analysis Node (DAN) creates analyzed products, the DAN should post a message of its products distribution.

✓ Query and comment

JPT and ADRC members can post a query or a comment about Sentinel Asia operation, data analysis or operation rules

✓ Notification

If JPT and ADRC members find any irrelevant posting, please notice to the administrator as specified in Section 2, Article 3 in this Guide.

Adoministrator operation

✓ Answer

The administrator should make a effort to answer a query or a comment as much as posible.

✓ Management

If the administrator find any irrelevant posting, the administrator may delete it and should comment the reason of its deletion.

site image

Basic information

- (1) URL: http://facebook.com/Sentinelasia
- (2) Administrator

Kengo Aizawa (JAXA Sentinel Asia Secretariat)

Masahiko Nagai (AIT GIC PDAN)

(3) Sentinel Asia website:

http://sentinel.tksc.jaxa.jp

Do we start Facebook as a communication tool?

- 3month trial
- Review operation
- inprove role and rule

Comments?

Proposals, Volunteers are welcome.

Please let me know.
