

EOR and Emergency Observation Response Procedure

5th Joint Project Team Meeting for Sentinel Asia STEP3 (JPTM2018) Howard Civil Service International House, Taipei, Taiwan

23-24, January 2018

Makoto IKEDA

Asian Disaster Reduction Center (ADRC)

Purpose of EOR

(Depends on Procedure of Emergency Observation Request)

- 1. EOR is to appropriately and efficiently communicate the nature, timing and location of a disaster event, to allow an assessment of how the Sentinel Asia framework can best support in terms of disaster assessment and response planning, and to activate supporting agencies as required.
- It represents an appeal for assistance from the disaster-affected country and is the fundamental instrument around which the Sentinel Asia framework is organised and executed.

Our role in Sentinel Asia

EOR procedures

 The default method for the initiaion of an EOR for Request Organization(RO) is to complete the online form at:

https://sentinel.tksc.jaxa.jp/
