

User's Good Practices and Challenge

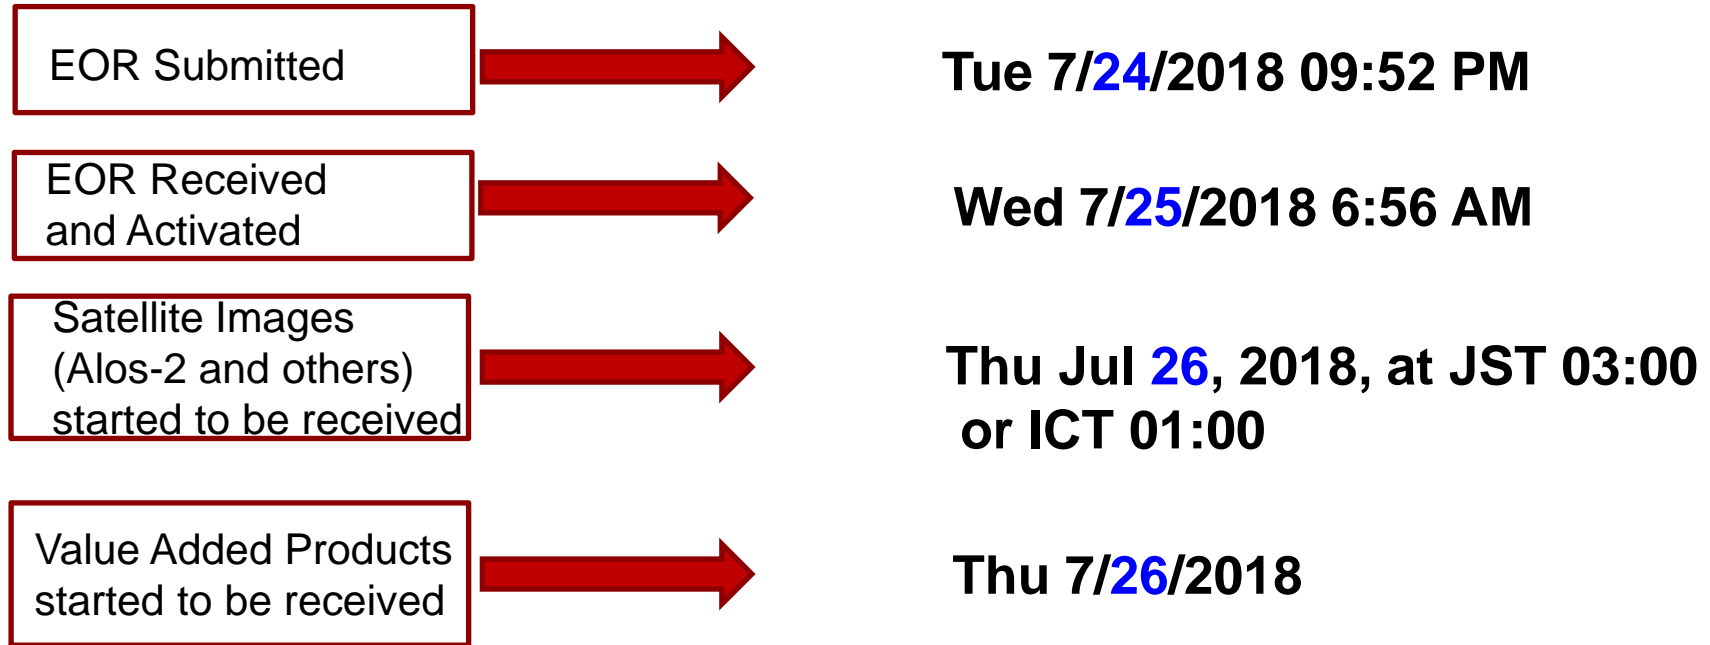

Case: Lao Dam Collapse, 23 July 2018

ADPC 's Report as Data Analyst Node Member

Good Practice of SA Activation: Laos Dam Collapse

23 July 2018

3-days from EOR Submission until VAP ready

Challenges in meeting the user's need

- How useful the value added product for the user (e.g. NDMO who has a mandate in coordinating the effort on the ground) ?
- What still need to be improved to meet the need and how to improve ?
