   (1) Flood, Indonesia
   Severe flooding in Jakarta as well as in West Java and Banten Province has claimed at least nine lives and forced thousands of residents to flee their homes after heavy rains from the evening of 31 December 2019 to the morning of 1 January 2020, and inundated both residential and commercial areas across the capital. EOR was escalated to International Disaster Charter.

   (2) Volcanic Eruption, Philippines
   On 12 January 2020, alert level-4 (hazardous eruption imminent) was raised over Taal Volcano located in the CALABARZON region 70 km south of the capital Manila, Philippines. According to PHIVOLCS (Philippine Institute of Volcanology and Seismology), Taal Volcano progressed into a magmatic eruption at 2:49 A.M. local time on 13 January 2020. EOR was escalated to International Disaster Charter.

   (3) Flood, Iran
   Heavy rain starting on January 9, 2020, has led to flash floods across the Hormozgan, Kerman, and Sistan-Baluchestan provinces in southern Iran. The floods have destroyed thousands of houses, displaced hundreds of people, and caused at least three fatalities.

   (4) Earthquake, Turkey
A 6.8 magnitude earthquake struck Eastern Turkey at 8:55 PM local time on January 24, at a depth of 15km and centered near the district of Sivrice in eastern Elazig province, Turkey.

2. [News] Result of the Steering Committee meeting of Sentinel Asia

The Steering Committee meeting was held in Hyderabad, hosted by NRSC/ISRO during 21-22, January 2020 in close collaboration with Japan Aerospace Exploration Agency (JAXA) and ISRO. The meeting was conducted in 6 sessions over 2 days, with the main targets to review the current status of the Strategic Plan document, improve user interaction from DPN/DAN viewpoint, strengthen user interaction within Sentinel Asia community, review SA Working Groups, and discuss strategies on private sector's involvement in Sentinel Asia activities.

Furthermore, there were emphasis on strengthening the Sentinel Asia activities by incorporating early warning studies and by enhancing the capacity building activities, and the need for revamping of existing working groups to meet the needs of new disaster activities across Asia.

3. [Announcement] Emergency Observation Request

With the transition of the Sentinel Asia system, EOR process has changed. Below are the manual for new EOR process.

JPT member organizations are able to utilize EORs to gather information on major disasters in the Asia-Pacific region from the following satellites: ALOS-2 (JAXA), Resourcesat-2, CARTOSAT-2, RISAT-1 (ISRO), THEOS (GISTDA), VNREDSat-1 (VAST), X-Sat (CRISP), KOMPSAT (KARI), DubaiSat-2 (UAE) and FORMOSAT-5 (NARL).

There are two ways to request for EOR,

- Request for EOR through the OPTEMIS (ID and Password required):
